To Whom It May Concern:

I am pleased to offer my endorsement of The Kindness Objective (TKO), a 501c3, nonprofit organization founded by Melissa Marquais, established to address the issues of bullying among our young citizens. TKO is seeking financial assistance to support their programs that are experiencing great success in and around our community.

People who face consistent belittling by others need a safe place to express their concerns and healthy activities that will enable them to learn to rebuild their self esteem. TKO is building a successful network of locations and followers that are dedicated to breaking the cycle of bullying and offer affirming and positive enrichment for their target audience.

I trust you will consider supporting The Kindness Objective. The return on your investment will pay dividends for future generations in our community and beyond.

Sincerely,

Joe Pitts
Mayor
